Petition for Carol & Richard Turner

I have known the Turners a long time. They are good, caring and hardwoking family. When he build his shop he was so proud of the business and the services he could provide people. He always would take care of the road so his neighbors would appericate it, knowing his business would bring in more vechiles on the road he kept it real nice. I can not understand how the families can say the road is so bad, I traved that road way before Mr. Turner moved their. That road was bad, muddy, holes, dusty and in winter would break through in spot. I know he ceased doing the road out front because of the troubles.

The families out front just wants them out of their street. Children should not play in the road without the parents. I also know some of the families that complain. they are good people also. If they would go about their own business and stop complaining to each other, they would be ok. They need to help take care of the road just like Mr. Turner.

I think you should grant him his variances and make sure the other families help maintain the road. They should not be confronting vechiles as they drive that road.

Sincerely,
Dorothy Gardner
