WALDORF BEAUTIFICATION PROJECT

With Pride, We Prosper

Help Keep It Clean!

The Mission **of the Waldorf Beautification Project is to guide and direct the beautification of the large area of Waldorf in Charles County, Maryland.**

To achieve this mission, emphasis will be placed on education concerning the damages caused to a community, through health issues, esthetics, and property values, by a lack of awareness of the importance of citizens' dedication to the beautification of our neighborhoods.

The project necessitates the use of short- and long-term components. Partnerships with schools, residents, businesses, civic and charitable organizations, and government entities will be established. The work of the Team shall consist of promoting the clean-up of common areas and roadways, encouraging environmentally-friendly neighborhoods with landscaping, emphasizing the conservation of natural resources, and support for programs in schools to educate youth in the earth sciences.

An Initiative of Charles County Commissioner Vice-President Reuben B. Collins, II, Esq.
Sponsored and Endorsed by the Board of Charles County Commissioners
