Explanation of New Fees

- 3 This fee, which pertains only to commercial site plans, covers the cost of our review. Since this review benefits only the applicant, the applicant should bear its cost and not the county taxpayers.
- 4 This is a process that can be requested by the public and currently there is no fee attached to the process which would require a public hearing with both the Planning Commission and the County Commissioners. Public notification in the paper is required and several work sessions could be required for both the Planning Commission and/or County Commissioners.
- 5 A Modification 104 (MOD 104) is a variance request of the Subdivision Regulations to modify or waive any requirement or procedure of these regulations. An applicant must demonstrate how the request meets the general findings of the Subdivision Regulations in Section 104(b) and how the request meets the six (6) criteria for Burden of Proof described in Section 104(c). This request must be approved by the Planning Commission, which likewise requires public notice.
- 6 This fee recovers our cost for staff review and a report for presentation to the Planning Commission.
- 7 After initial two year approval of the preliminary plan, the applicant must request an administrative one year extension that is approved by the Planning Director. This review includes a review of Adequate Public Facilities and of the Conditions of Approval of the plan. This fee recovers our cost of review.
- 8-13 When a Preliminary Plan of Subdivision has been active for six years, it requires, under the Subdivision Regulations (25(i)jE) to receive a review consistent with that of a new preliminary subdivision plan application and requires preparation of a report for the Planning Commission and follow-up after Planning Commission review and approval. As this review replicates the review of a new application, including Adequate Public Facilities, it is recommended that the same fees for a Preliminary Plan of Subdivision and Adequate Public Facilities review fee, if applicable, be charged to recover our costs.
- 14 Each year past the six year conformity review, the plan must be reviewed for Adequate Public Facilities and Conditions of Approval. This extension requires the review and approval of the Planning Commission and requires public notice.
- 15 For Preliminary Plans, Final Plats and Site Development Plans, the average review of the plans is 2 to 2.5 reviews. Approximately 60-70% of the plans submitted are going through 4-8 review cycles before approval. Much of this review is quality control for the applicant, not technical review comments. Currently no fee is charged for these multiple review cycles. This fee will recover our cost and improve the quality of documents submitted.

27	Emergency/Holiday Inspection Rate (for all infrastructure inspections outside of normal business hours, holidays, weekends, and night work)	N/A		\$80/hr	

Explanation of New Fees

- 18 Section 26 of the Subdivision Regulations requires a Development Services Permit for improvements. Section 102 (Application and Other Fees) of the Subdivision Regulations states that "Fees to partially cover the cost of considering, examining, and checking the several plats and plans required herein..." gives the "authority" to establish the fees for dedication document review which is part of plat review process.
- 19 This charge will cover two hours of an inspector's time to review and field check the submitted drawings.
- 20 This charge will cover 30 minutes of an inspector's time to review and field check the submitted drawings. A re-submittal fee should reduce the applicants using the County as quality control.
- 21 This fee will cover costs associated with having to reinspect Water & Sewer Facilities during the test monitoring for the occasional failure. The test monitoring is time consuming and the proposed fee will offset cost.
- 22 Section 10.4 (Fees) of the Stormwater Management Ordinance gives the authority to establish plan review fees for Storm Water Management.
- 23 This fee is consistent with the minimum inspection fees for Storm Water Management inspections. Note that the construction inspection fee percentage is the same for these two categories.
- 24 Section 1.6 (fee Assessment Authority), of the Water & Sewer Ordinance gives the authority to establish a minimum inspection fee. This fee is consistent with the hourly plan review fees for infrastructure plan review.
- 25 Section 34 of the Subdivision Regulations requires a Deed of Conveyance. Please note that the dedication documents are required and to be approved prior to the approval of plats. Therefore Section 102 (Application and Other Fees) of the Subdivision Regulations states that "Fees to partially cover the cost of considering, examining, and checking the several plats and plans required herein..." gives the authority to establish the fees for dedication document review which is a part of plat review process.
- 26 This charge will cover two hours of an inspector's time to revisit a site to ensure outstanding issues are resolved for failed inspections at substantial and final inspections (requiring a contractor to pay each time an inspector has to come out should reduce a contractor's dependency on PGM Staff for Quality Control)
- 27 Night work and weekend work by applicant puts undue pressure on limited County inspection resources. In accordance with Chapter 14 of the Charles County Personnel & Policy Manual, which states: "Employees may be required to work overtime hours as necessitated by work related conditions." In order to accommodate requests from applicants to meet their inspection needs for construction that is completed outside of normal working hours and not incur additional costs an additional fee for inspection outside normal hours should be established. The County is allowed to charge fees for inspections in accordance with the following code references: Charles County Grading & Sediment Control Ordinance, 244-19 Permit Fee, Charles County Water and Sewer Ordinance, 1.6 Fee Assessment Authority, and Charles County Stormwater Management Ordinance, 10.4.
