The Charles County Department of Planning and Growth Management has revised the current FY12 Fees and Charges that are applicable to the County's building, electrical, plumbing and gas, and mechanical inspections as well as the building permit plan review. These changes are due to a Consumer Price Index adjustment in accordance with the existing building inspection contract and building plan review contract with Planchek, Inc.

The revised inspection and plan review fees will be applied to permits applied for on and after February 1, 2012. Please [click here](#) to be taken to the revised inspection and plan review FY12 Fees and Charges.
