Charles County is conducting a study to draft zoning regulations for the Village of Hughesville. The project is a key component in implementing the 2007 Hughesville Village Revitalization Plan, which calls for promoting infill development and revitalization while preserving and enhancing the village character. The study area contains land currently in the Village Residential (RV), Village Commercial (CV), and Light Industrial (IG) zoning districts (see illustration below).

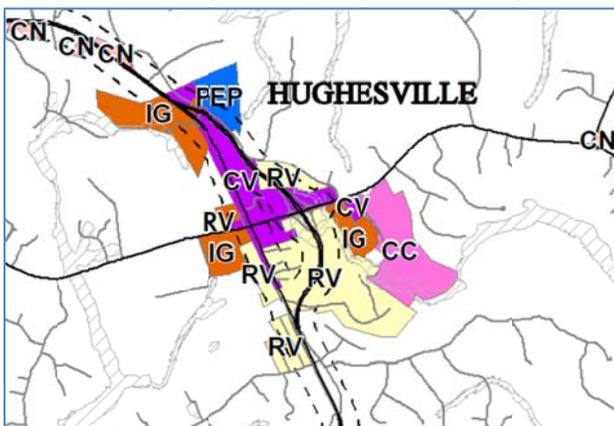

On Tuesday, October 13, 2015, the Department of Planning and Growth Management will hold a public meeting/open house to present issues, options and initial recommendations for new zoning districts and revisions to the zoning maps for Hughesville.

An Issue Paper containing material to be presented at the public meeting will be available for review beginning on October 6, 2015 on the Department of Planning and Growth Management Hughesville [webpage](#).
